

Senior Consultant Asset Management (m-w-d)

About E-Bridge

E-Bridge is an innovative **management consultancy with expertise in energy**. We work with our clients to realise the energy transition, building a bridge between strategic consulting and responsibility for implementation.

We are looking for a full-time or part-time employee to support our asset management team as soon as possible.

Your tasks

- Advising of primarily network operators in Germany and Europe on all issues in the context of asset management.
- Supporting our customers in the strategic orientation of their asset management in order to achieve long-term objectives.
- Advising our customers on acute, forward-looking decisions relating to the energy transition.
- Implementation or further development of asset management systems in accordance with ISO 55001 and the E-Bridge best practice approach.
- Continuous further development of the E-Bridge best practice approach together with our team. You will take on responsibility as project manager and manage a team of experts and young consultants.
- You think outside the box and identify further consulting needs for customers.

What we expect from you

- Expertise in the field of asset management through professional experience in a consultancy, with a network operator or with an employer with comparable challenges in the management of infrastructure assets.
- Ideally knowledge of the planning, construction and/or operation of energy networks.
- You have a quick understanding, recognise correlations and are able to draw the right conclusions to find innovative solutions.
- You have a very good degree or doctorate and are a team player.

What we offer you

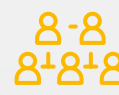

Permanent employment contract
